Professional Summary

Results-driven **React.js Developer** with a strong foundation in front-end and full-stack web development using the MERN stack. Passionate about building modern, responsive, and user-centric web applications. Skilled in solving complex problems, collaborating with cross-functional teams, and optimizing web performance. Seeking a challenging role to contribute technical skills and drive innovation in a growth-focused environment.

Skills & Technologies

Front-End Development: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive
Back-End Development: Node.js, Express.js, RESTful API Integration
Database Management: MongoDB (Mongoose ODM), Data Validation, CRUD Operations
Tools & Platforms: Git, GitHub, Postman, VS Code
Core Concepts: JWT Authentication, React Hooks (useState, useEffect, useContext), Routing, Debugging, UI/UX Principles
Soft Skills: Problem-Solving, Team Collaboration, Time Management, Technical Support

Professional Experience

React.js Developer
WMD Services India Pvt. Ltd., Hospet
March 2024 – Present

- Built and maintained responsive single-page applications using **React.js**, **JavaScript**, and **Tailwind CSS**.
- Integrated **RESTful APIs** with **Node.js** and **MongoDB** to enable dynamic data operations.
- Implemented **React Router** for seamless navigation between views.
- Optimized performance and responsiveness using **React Hooks** and modern best practices.
- Collaborated with backend teams to build full-stack features and improve application speed and reliability.

Service Engineer
VR Laptop Zone (Dell Exclusive Store), Hospet
Jan 2024 – March 2024

- Diagnosed and repaired over 100+ laptops and desktops, achieving a first-time fix rate.
- Installed OS, drivers, and software on 500+ devices.
- Handled maintenance and support for 50+ printers and peripherals monthly.
- Delivered high-quality customer service and technical support for home and business users.

Projects

1. Online Food Ordering System
Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Axios, JWT

Website link : https://freshbitezone.netlify.app/

Developed a full-stack web application for users to browse menus, add items to cart, place orders, and track order history. Includes a dedicated admin panel for managing users and orders.

Key Features:

- **JWT Authentication** for secure login and route protection.
- Dynamic **cart and order placement** system with real-time updates.
- **MongoDB Integration** with schema validation and timestamp tracking.
- **Admin Dashboard** to manage all orders and users efficiently.
- Full **CRUD functionality** via RESTful API using Express.js and Mongoose.
- Mobile-first responsive design using Tailwind CSS.

2. Janatha Automobiles (TATA Motors Dealer) – Commercial website
Freelance Project **-** Tech Stack: React.js, Tailwind CSS

Website link : https://janathaautomobiles.netlify.app/

Project Description:
Developed and deployed a modern static website for an authorized TATA Motors commercial vehicle dealer showcasing their offerings and enabling customer engagement. The platform serves as a digital showroom for their commercial vehicles portfolio while facilitating service bookings.

Key Features & Responsibilities:

- Built 10+ responsive pages including Home, About, Vehicles, Services, and Contact sections.
- Implemented service booking forms with validation for 5+ branch locations.
- Integrated interactive Google Maps with QR code functionality for easy location access.
- Designed vehicle showcase sections with detailed specifications for commercial trucks
